

REMARKS

Submitted herewith is a substitute Sequence Listing in compliance with 37 C.F.R. § 1.821-1.825. Sequence Listing pages 1 through 8 are submitted herewith containing Sequences 1 through 28, formatted in accordance with the conventions set forth by PatentIn. Entry of these pages is respectfully requested.

Also submitted herewith is a Statement Under 37 C.F.R. § 1.825 (a) and (b) stating that the substitute Sequence Listing contains no new matter.

With respect to the alleged non-compliance of the previously submitted Sequence Listing, Applicants appreciate the reference in the Notification to the PAIR document dated October 27, 2009, and the helpful comments provided by Supervisory Examiner Low on how to address the defects. As suggested by Supervisory Examiner Low, the substitute Sequence Listing has been amended at SEQ ID NO:14 to annotate the feature of RNA at positions 1-3, 5-8, 10-14, 16, 18 and 19 as having a modified base modified at the 2' position. As additionally suggested by Supervisory Examiner Low, SEQ ID NOS:15-28 have been listed as the respective sequences with the positions of modified bases annotated as appropriate rather than showing the modified bases as "n" in the sequences as in the previously submitted Sequence Listing.

If there are any questions, please contact the undersigned.

To the extent necessary, a petition for an extension of time under 37 C.F.R. 1.136 is hereby made. Please charge any shortage in fees due in connection with the filing of this paper,

Application No.: 10/592,919

including extension of time fees, to Deposit Account 502624 and please credit any excess fees to such deposit account.

Respectfully submitted,

McDERMOTT WILL & EMERY LLP
